Fig.4

INSTALLATION INSTRUCTIONS

- **Cut hole in surface of countertop 95.25mm (see Fig.1)**
- **Remove plastic threaded locking flange from main unit**
- **Feed power cord through hole in countertop first followed by main unit, pushing down until black gasket is resting on countertop (see Fig.2)**
- **Feed power cord through plastic locking flange and thread flange counter-clockwise until locked in place against underside of countertop (see Fig.3 & Fig.4)**
- **Plug power cord into electrical outlet box underneath countertop**
- **Remove plastic protective film and discard**
- **To open pop-up feature, press firmly on cover. Unit will deploy approximately 25mm initially, then pull cover upward until unit locks in place**
- **To close device, push the red plastic locking tab and push down on cover until unit locks**

PRIOR TO INSTALLATION

- **Ensure there is adequate space to install (see below)**
- **Disconnect and turn off all power sources**

CONDITIONS

- **For Indoor Use Only**
- **Not suitable for floor use**
- **Cableduct Systems accepts no responsibility if the above conditions are not followed.**

CUTOUT & MOUNTING

- **Select the desired location within the countertop, desktop or benchtop at least 254mm away from any heat source**
- **Desired location must be at least 20mm away from the edge of top**
- **Mounting surfaces must be between 9.5mm and 55mm thick and have a below clearance of 320mm**
